User Story	To Do	In Progress	Done	No longer needed
As a user, I want a personal profile page where I can update information about myself, so that other users might get to know me.			<p>Task 1: Write a new HTML page to represent the user profile</p> <p>Task 2: Form a new database for user profiles</p> <p>Task 3: Make aspects of this page editable, and save those aspects to the user database, where they can later be accessed.</p> <p>Task 4: Make username clickable and</p>	

			<p>have it link to their respective profile</p> <p>Task 5: Add user's photo next to snippets they have posted.</p>	
<p>As a user, I want the website to look visually organized and aesthetically pleasant, so that it is simple and easy for me to use.</p>			<p>Task 1: Improve index page, make it more welcoming to new users.</p> <p>Task 2: Implement color scheme, add tasteful graphics</p> <p>Task 3: Improve CSS for stories on user's profile page.</p>	
<p>As a user, I want to see what snippets I've posted to other stories in the past and maybe check how they're coming along.</p>			<p>Task 1: Add field for user stories/contributed stories.</p> <p>Task 2: Display each story title a user has started on their profile page.</p> <p>Task 3: Display each story title a user has contributed to underneath.</p>	

			Task 4: Make these linkable to their respective stories.	
As a user, I want to view other stories by post date, popularity, number of snippets, and genre.				Task 1: Add drop down menu for sorting. Task 2: Add functions for filtering for each parameter. Task 3: Allow sorting to be conducted by the menu buttons.
