## **Definition of Done**

- Adding a new story does not interfere with and break previous user stories
- Code for the story adheres to the style guide
- Story has been tested by at least one other member before being pushed to master
- all team members are aware of what story is being implemented
- all tasks from the story have to be completed
- Story must be assessed in case additional tasks may be required
- product owner and scrum master have approved of the story
- all acceptance criteria has been met
