

SPRINT 1 REPORT

Team Name: Camphyr

Team Members: Nicole Kyriakopoulos, Kirby Lam, Alex Mayben, Michelle Meng, Raymond Mai

Date: April 23th, 2018

Actions to start doing:

- Stay on focus/topic during meetings
- Be more prepared for meetings
- Start pair programming

Actions to stop doing:

- Stop messing up with Git

Stories completed: None so far

Stories not completed:

- 5 - As a user, I want to write and post story snippets to a platform where they will then be stored
- 5 – As a user, I want to add to other snippets with my own.
- 5 – As a user, I want to easily find other snippets, so I can add onto them.
- 3 – As a user, I want to name my stories so that I can keep track of them later.

Work Completion Rate:

- 1. Total number of user stories completed: 0
- 2. Total number of estimated work hours completed collectively as a team: 34
- 3. Total number of days during the sprint: 14
- 4. User stories completed per day: 0
- 5. Hours worked per day: 3

Burnup Chart:

SCRUM BOARD

User Story	To Do	In Progress	Done	No longer needed
As a user, I want to write and post story snippets to a platform where they will then be stored.		Task 3: Save that result to the database where it can be accessed later, not just from a page refresh. Time estimate: 6 hours	Task 1: Research database options and find a suitable platform. Time estimate: 7 hours Task 2: Code a responsive textbox using Javascript that returns the result to a unique webpage. Time estimate: 2 hours Task 4.a: Limit the submission to 200 characters. Time estimate: 1 hour Task 4.b: Once the character limit has been achieved, then increase the	

			limit to 2500 characters. Time estimate: 0 hours	
“As a user, I want to add to other snippets with my own.”	<p>Task 4: Limit the number of snippets per story to 10. Time estimate: 1 hour</p> <p>Task 5: Add a blurb for when the 10th snippet is being written. Time estimate: 0 hours</p>		<p>Task 1: Research linked lists in Javascript and how to use them. Time estimate: 3 hours</p>	<p>Task 2: Define each snippet as a node object in a linked list. Time estimate: 2 hours</p> <p>Task 3: Establish the starting snippet as the head of a new linked list. Time estimate: 2 hours</p> <p>Task 6: Add a text box and submit button to the tail node of the linked list. Time estimate: 1 hour</p> <p>Task 7: Create and store multiple linked lists in this manner. Time estimate: 2 hours</p>
“As a user, I want to easily find other snippets, so I can add onto them.”	<p>Task 1: Maintain a summary of 20 most recent snippets logged into the database. Time estimate: 3 hours</p>			<p>Task 2: Identify the snippets by the first 20 characters of the head node in the linked list. Time estimate: 2 hours</p>

	<p>Task 3: Make the snippets accessible from a specific page on the site. Time estimate: 2 hours</p>			
<p>As a user, I want to name my stories so that I can keep track of them later</p>	<p>Task 1: Have an optional text box during the story creation for the title with a limit of 30 characters. Time estimate: 2 hours</p> <p>Task 2: Have the title be displayed on that story's page. Time estimate: 1 hour</p> <p>Task 3: Make title visible on story listing for story search page. Time estimate: 1 hour</p>
